Gannon University is now offering supplemental insurance coverage through payroll deduction. This is a voluntary program being offered to both full time and part time employees. You may choose to enroll in just one of the benefits, all of the benefits or none of the benefits - and your enrollment in Aflac does not affect your group health insurance. Below is a brief summary of the programs that are available to you.

- **Short Term Disability** - Insurance to protect your PAYCHECK! If you are unable to work because of an off-the job accident, illness, surgery or maternity leave, Aflac will provide you with a paycheck. You can custom design the amount you are paid and how long you will be paid for.

- **Accident** - This policy will pay you in the event that you or a covered family member suffers an injury, sees a doctor, has an emergency room visit, sees a chiropractor and even a dentist for a broken tooth. You will receive a minimum payment of $120 for every injury even if your health insurance carrier has paid your medical bills. This policy also includes a wellness benefit of $60 per year and an accidental death benefit for the whole family.

- **Cancer** - Your health insurance will cover the doctors and hospital bills, but who will pay the rent/mortgage, car payments, utility bills, etc. if you are sick and unable to work? Aflac will send you money to help pay those expenses and it even covers travel and lodging expenses if you seek treatment more than 50 miles from home.

- **Personal Sickness** – Do you or your loved ones ever go to the doctors for a sickness or checkups? Are you considering a maternity leave in the future? This policy along with a short term disability policy will offer you the peace of mind financially.
