Gannon University’s High School Dual Enrollment program is an opportunity for high school juniors and seniors to enroll in college courses while in high school.

To apply for the High School Dual Enrollment program, students must submit this Application, official high school transcripts, the enclosed School Authorization Form signed by his/her high school counselor or principal and a check (made payable to Gannon University) for the full cost of course(s). All documents must be submitted together for consideration. There is no application fee for the High School Dual Enrollment Application.

Gannon University’s Office of Admissions will grant the final decision on admissions. To ensure that a student’s experience at Gannon will enhance his/her high school performance, we ask that students work with the high school guidance counselor or principal to avoid any conflict with regular school work while attending classes at Gannon University.

Admission as a High School Dual Enrollee does not constitute admission to a four-year degree program at Gannon University. We welcome students to apply early in their senior year for a major of their choice.

There is no reduction of the charges after the third week. In terms shorter than a semester, a credit of 75% of tuition will be made for proper withdrawal within the first week of the term and none thereafter. There will be no refund of fees paid.

TRANSFER OF DUAL ENROLLMENT CREDITS

All colleges and universities have specific policies regarding acceptance of transfer, dual enrollment, and Advanced Placement credits. High school students, particularly those interested in graduate or professional schools (i.e. Pharmacy, Law, or Medical Schools) should know that some colleges, universities and graduate and professional schools can choose not to accept/recognize dual enrollment, articulation or advanced placement credits. Therefore, any high school student who enters into a dual enrollment or articulation program or who takes advanced placement credits must realize that the professional schools could require such students to take additional higher level courses in the same discipline or meet other criteria to compensate for dual enrollment/articulation/advance placement credit. It is highly recommended that, before dual enrolling, students should discuss specific transfer and dual enrollment policies with the Program Directors at the colleges and universities to which they are planning to apply/transfer.
